

EG50
Condenseur KAUC 2363.5/6
n° série F2600040 2000001

The image shows a large industrial facility with two rows of massive condenser units. Each unit consists of a large, grey, cylindrical base with horizontal ridges and a large, angled, grey metal cover on top. The units are mounted on a concrete floor with black metal support structures. In the background, there are vertical metal beams and horizontal pipes. The lighting is bright and even.
